

Greetings from Seussville,

Our new quarter has started and we hit the ground running. We have so many things to explore and the year is passing us by so fast. The Gala is this weekend. I hope to see all of you there.

All report Cards went out last Friday, if you have not given me your signed envelope please do so by Monday.

Seussville Fund: Thank you everyone for your donations. Our Fund is at \$125.00. I will be buying fabric paint soon, for a Ratios and Proportions project that is coming up with 6<sup>th</sup>-8<sup>th</sup> graders. The 8<sup>th</sup> graders will start first, and shortly after the 6<sup>th</sup> and 7<sup>th</sup> graders.

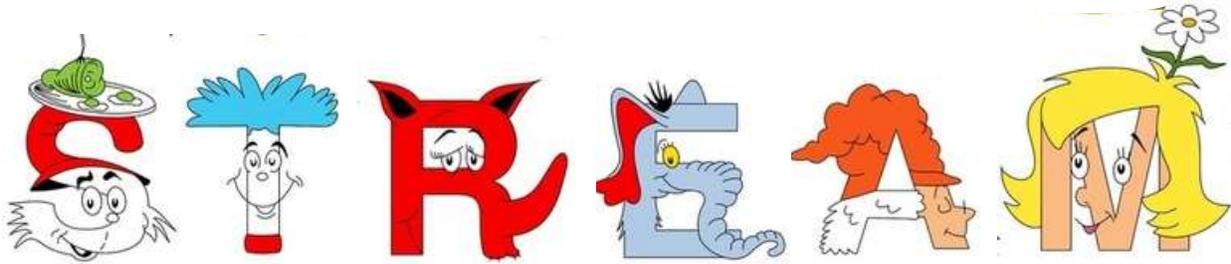

6<sup>th</sup> Grade Camp: Mrs. Huelskamp has sent an invoice to all of you in regards to 6<sup>th</sup> grade camp. Please check your e-mails so that you can plan accordingly.

Math Lab: Tuesday 3:30 to 4:15.

Robotics: The students are getting ready for their final Competition. I will keep you posted of dates and times, check your e-mails.

Seussville Mayor,

*Mrs. Martinez*

“A steady flow of knowledge”

**Science:** Congratulations to Sean M. (8<sup>th</sup>), Nick N. (8<sup>th</sup>), Eric C. (7<sup>th</sup>), and Donald M. for being submitted to the Greater San Diego Science and Engineering Fair for screening. We are awaiting a response to see if our students will make it to the Fair.

**Technology:** Mr. Adriano has been working with the students on Digital Design. They are doing a great job!

**Religion:** The 6<sup>th</sup> and 7<sup>th</sup> graders have finished their study on Moses. We learned that no matter how hard a situation might look

to us, there are no impossibles for God.

**Engineering:** The Robotics Team has been doing a fabulous job. We are a rookie team and we have been beating teams that have been doing this for 5 plus years. We are getting ready for our last competition. I will give you more details via e-mail. Even if your child is not in Robotics, we would love to see you there to show your support.

**Art:** Our 8<sup>th</sup> Graders are learning about Ratios and Proportions.

They had to choose their favorite snack wrapper and draw it in proportion to the actual dimensions of the wrapper.

**Mathematics:** We have been having some problems with Khan Academy, which do not allow the students to see any of the assignments I have recommended. We are not using Khan Academy at the moment until further notice.

Currently working on:

## 6<sup>th</sup>- Progress in Mathematics

### Chapter 13- Measurement

7<sup>th</sup>- Fundamentals of Algebra- It looks like we are behind, but we have skipped chapters and now we are back to the beginning of the book.

Group A: Chapter 2- Expressions and Equations

Group B: Chapter 4- Rational Numbers: Decimals

## 8<sup>th</sup>- Foundations of Algebra

### Chapter 7- Ratio and Proportion

## Math Humor
